Cable Assemblies

Company Profile

Our extensive product lines include cables, HDMI cable, networking assemblies, and more. We are committed to provide our customers the superior quality of cable assembly products. We adhered to international standard quality control and strict inspections will be taken before shipment. Our suppliers manufacture all cable in their own factories, this assure consistent quality and offering the most reasonable pricing.

Besides standard products, our supplies also offers custom cable assembly service. We ask you to send us your drawings and requirements, we are confident we will meet and exceed your expectations. Our vast experience and knowledge in the industry assures our customers our understanding of current market requirements.

We are confident we can meet all your cable assemble needs.

Mainland China Manufacturing Plant

Our suppliers have been leaders in cable assembly business in China for over 2 decade.

The main factory is over 4000-square-meters with total staff 200 people, which including 19 QC staff and 9 R&D staff.

QC/Technical Support

QC process is implemented by our in-house QC staff which is composed of our engineers and trained production personnel. We are equipped with a series of specialized QC equipment including cable tester, auto flame tester, microcomputer, digital thermometer and cable bending machines.

Production materials are inspected before they reach production lines. Next QC inspection will continue during each stage of production. Then, products are randomly checked to further eliminate products failing to meet quality standards. Finally, finished products will be examined again before packaging.

Our quality policy is to work with all our customers as partners and confirm beyond customer's specification.

1510 Sylvania Ave #211 Sturtevant, WI 53177
262-884-9087 Fax 262-884-9082

Research and development

Our R&D department is not only specialized in computer technology and product design, but also skilled at enhancing production efficiency.

The direction of the department is developing new products to suit current and new market demands.

New products are created with an emphasis of their design, quality and function integrity.

Service and Support

Samples are offered free or with a minimal charge.

We can provide quality documentation quality inspection reports.

After the sale, should any problem concerning the product arise,
