

ET-72300C SERIES

SMD Current Sense Transformer

- Low profile – height 4.1mm max.
- Designed for automatic pick and place.
- Operating frequency range 10KHz to 1MHz.
- Primary rated for 20 Amps AC rms max.
- Special design available on customer request.

UNIT : mm

Electrical specification at 25°C ----Operating Temperature -25°C to 125°C
